4400 Morgan Street
St.Louis, Mo.

Dear Sir:

Do you think that the St.Louis Numismatic Society would be interested in a representative collection of Mohammedan coins picked up in Persia? These include early Caliphs, Seljukes, Mongols - and later, when I get them attributed, the Shahs of Persia.

A large collection of these has been turned over to this Museum for selection and disposition. I can make up various representative collections of these, ranging from a few hundred dollars to a couple of thousand.

If you think that any of your members would be interested, I could later send on an assortment.

Very truly yours,

H./E

Curator
